"How much do I love this industry? I’d be thrilled if my own kids went into it."

Michael Bridwell   Director, Commercial Sales – Dana Innovations

"What got me into this industry – and keeps me here – is the creativity. It’s as much art as it is science. And every day brings new opportunities, new challenges, and new successes to celebrate."

Justin Watts   Global Service Delivery Manager – Facebook

"This is an industry where you can use both your left and right brain. It’s technical, but also artistic."

Victoria Ferrari   Senior Account Executive – Netrix

"If you’re passionate about what you do, this industry gives you the opportunity to pursue your interests from multiple angles."

Alesia Hendley   Associate Sales Engineer – Access Networks

"What got me into this industry – and keeps me here – is the creativity. It’s as much art as it is science. And every day brings new opportunities, new challenges, and new successes to celebrate."

Justin Watts   Global Service Delivery Manager – Facebook

Think BIG
Explore careers in Communication Technology

Incredible opportunity
You’re in demand. Big time.
The larger our industry grows, the more jobs there are to fill. But our challenge is your opportunity – because Communications Technology offers a broad array of career paths ranging from technical positions to sales and marketing. Not sure where to begin? Ignite, a career-builder resource created by the National Systems Contractors Association (NSCA), offers access to job boards, internships and information. But first, take a closer look at what makes this industry so awesome.

Massive industry
We’re a multi-billion-dollar employer – and getting bigger every year.
Business and government. Sports and entertainment. Health care and education. It all runs on Communications Technology – technology that enables people around the world to connect and collaborate as if they were in the same room.

Some industry professionals design and build the systems that allow us to share information, ideas and experiences. Others specialize in selling, marketing and servicing them. We’re talking everything from corporate conference rooms to space station command centers.

These days, practically every Communication Technology firm is hiring. And they’ll do whatever it takes to meet the growing demand for their services until they fill those positions. That’s where you come in.

Employers will PAY. Salaries start high and can rise fast. And that’s only part of the story. Full-time positions come with great benefits like health insurance, 401k, paid time off, and much more.

The industry will TRAIN. Think you’re unqualified? Think again. The industry offers internships, apprenticeships and mentorships, along with a wide range of opportunities for continuing education, including professional certifications.

Performers get PROMOTED. You’ll be amazed by how quickly you can advance in an organization. Because technology is always changing, and so are the opportunities that come along with it.

The numbers tell the story.

Open Positions at any given time. Median salaries in the industry

Junior technicians $38,400
Junior Stage Manager $40,000
Senior technicians $45,500
Customer Service $53,160
